

# Blueball Cubicle Sandvox Designs

## Version Release Notes

### Version 5.0 - Released 01-09-09

#### **Includes the following significant updates:**

- Fixed display issue with IE6 when IE6 was not in full screen mode that caused page contents to be off center. Page contents now display correctly when IE6 is not in full screen mode.
- Fixed callouts overlapping background issue where callout area's background color conflicted with bordered callouts background color causing inconsistent background appearance. Bordered callouts now display with correct background color behind them and eliminate color overlap.
- Fixed blog entries display issue with IE6. Blog entries now display in correct position in IE6.
- Added in new image resizing to each design's info.plist file. All images are now resized through the info.plist file in each design over riding Sandvox's default image rescaling. Additional plist files are not needed any longer to resize images.
- Made multiple css adjustments to the main.css file in both Cubicle designs.
- Added in new placeholder image.
- Updated all Cubicle readme files.

### Version 4.0 - Released 09-25-08

#### **Includes the following minor updates:**

- Updated main.css file in both designs. Changed Callout div background to #e5e5e5 color to match other callout and pagelet background color states on both designs. Changed Title Paragraph div width setting on the Cubicle Wide design only to 540px width.
- Updated info.plist file in both designs.

### Version 2.0 - Released 09-08-08

- Release of Sandvox 1.5 update for Blueball Cubicle and Blueball Cubicle Wide Sandvox Designs.

#### **Includes the following updates:**

- Updated both design versions for Sandvox 1.5's new features and functions
- Updated main.css file in both designs
- Added in 2 new Comments bubble image graphics in each design version
- Added in 2 customized KTScaledImageTypes.plist files
- Updated 3 Readme files for each design
